This list is provided to assist U.S. persons to fulfill the reporting requirements of the antiboycott regulations by raising awareness regarding certain sources of boycott-related requests. Each entity on this list has been reported by a U.S. person to BIS on a boycott request report form, as required by section 760.5 of the EAR, as having made a boycott-related request in connection with a transaction in the interstate or foreign commerce of the United States. The list is not exhaustive and will be updated quarterly. If you believe that you have been listed in error or would like to discuss the listing, please contact OAC. U.S. persons are encouraged to diligently review transaction documents from all sources, but especially transaction documents with or involving these parties, to identify possible boycott-related language and to determine whether they have a reporting requirement to BIS pursuant to part 760 of the EAR.
